INTRASTATE ACCESS SERVICE

APPLICATION OF TARIFF

- A. Except as otherwise provided in this Tariff, the regulations for Intrastate Access Service shall be the same as those filed in the National Exchange Carriers Association, Inc. (NECA) Tariff FCC No. 3 (with any revisions to same which may be filed in the future), and NECA Tariff FCC No. 5 as on file with the FCC on December 30, 2001.
- B. Exceptions to the NECA Tariff FCC No. 5 as on file with the FCC on December 30, 2001 are as follows:
1. Upper Peninsula Telephone Company is the only issuing carrier.
 2. Where a plain English reading of the material makes sense, the word "interstate" should be replaced with the word "intrastate".
 3. Except for the Rates and Charges contained in this Tariff, this Tariff will mirror, in the intrastate access jurisdiction, the rates applicable to Upper Peninsula Telephone Company stated in NECA Tariff FCC No. 5 as on file with the FCC on December 30, 2001.
 4. References to PIU in this Tariff refer to Percent Intrastate Use.
 5. The first paragraph in Section 2.3.11(A) should be changed to read:

. . . to the Telephone Company in writing that not more than ten percent of the traffic is interstate, the service is considered to be intrastate and is provided under this Tariff.

ISSUED: December 28, 2007

EFFECTIVE: January 1, 2008

Issued pursuant to Section 402 of 2005 PA 235

bdcobra@alphacomm.net

INTRASTATE ACCESS SERVICE
APPLICATION OF TARIFF (CONT'D)

- B. Exceptions to the NECA Tariff FCC No. 5 as on file with the FCC December 30, 2001 (Cont'd)
6. The following sentences should be added to the end of the second paragraph of Page 2-20:

If no order for service has been received for originating and/or terminating usage, the Telephone Company shall set jurisdictional percentages according to section 2.3.11(D)(1). In the instance the customer has failed to update the percentages after 12 months, the Telephone Company may assign a 50% intrastate usage percentage.

7. The following paragraphs should be added to Section 2.3.11(D):

If the customer fails to produce the data within thirty (30) days of the receipt of the notice, the Telephone Company will designate an intrastate percentage of 50% for each service. The factor will be applied to the next billing cycle following the thirty (30) day notice period and will be utilized until the customer provides supporting data that substantiates the requested percentages.

If the Telephone Company finds that the data submitted by the customer does not adequately support the reported percentages, the Telephone Company may assign percentages based on the methodology specified in Section 2.3.11(D)(1). Upon assigning an intrastate percentage of use, the Telephone Company will notify the customer of the change and that it will go into effect on the next billing cycle. The Telephone Company's designated percentage will remain in effect for twelve (12) months unless the customer contests the percentage as described in Section 2.3.11(D)(2).

ISSUED: December 28, 2007

EFFECTIVE: January 1, 2008

Issued pursuant to Section 402 of 2005 PA 235

INTRASTATE ACCESS SERVICE
APPLICATION OF TARIFF (CONT'D)

B. Exceptions to the NECA Tariff FCC No. 5 as on file with the FCC on December 30, 2001 (Cont'd)

7. The following paragraphs should be added to Section 2.3.11(D) (Cont'd):

- (1) If the Telephone Company determines that the reported intrastate percentage of use varies more than plus or minus three (3) basis points from the weighted average of all other customers and that the supporting data is not sufficient to substantiate the reported percentages, the Telephone Company may either develop percentages for originating and terminating usage based on actual originating usage or based on a weighted average using billed access of all other customers' reported percentages.
- (2) The customer may dispute the designated intrastate percentage(s) following the receipt of the bill. Disputes arising from the Telephone Company designating the intrastate percentage can be informally resolved. Any adjustment shall be on a prospective basis beginning with the next billing cycle. No retroactive adjustment is allowed. If the Telephone Company and the customer cannot informally resolve the dispute, the customer may contest the designated intrastate percentage by requesting a mutually agreed upon independent auditor to review its report percentages. Any cost of an independent audit will be borne by the customer. An adjustment of the intrastate percentage that is a result of an audit will be on a prospective basis beginning with the next billing cycle.

ISSUED: December 28, 2007

INTRASTATE ACCESS SERVICE
APPLICATION OF TARIFF (CONT'D)

B. Exceptions to the NECA Tariff FCC No. 5 as on file with the FCC on December 30, 2001 (Cont'd)

8. The following section should be added after Section 2.3.11(D):

(E) Maintenance of Customer Records

The customer shall retain and maintain net call detail records for a minimum 12-month period that statistically substantiates the percentages provided to the Telephone Company as set forth in Section 2.3.11 (C). Such net call detail records (i.e., work papers and/or backup documentation, including paper, magnetic tapes or any other form of records for billed customer traffic) shall consist of call information, including call terminating address (i.e., called number), the call duration, the trunk group or access lines over which the call is routed and the point at which the call enters and/or exits the customer's network, and calling number when available.

If the Telephone Company determines that the customer's records, worksheets and backup documentation are insufficient or if the customer does not provide the call detail records in accordance with the provisions set forth in this Tariff, the Telephone Company may request the call detail records on a prospective basis not to exceed a three-month time period.

9. Residual Usage Methodology. The Residual Usage Methodology (RUM) as approved by the Michigan Public Service Commission in Case No. U-14905 will be used by the Telephone Company to bill all tandem providers for intrastate access service.
