LOCAL CALL TERMINATION SERVICE (LCTS)

A. APPLICATION OF TARIFF

This tariff applies to calls originating in the local service territory of another provider and terminating as a local call within the local service area of Upper Peninsula Telephone Company.

B. GENERAL REGULATIONS

1. General regulations as depicted in the Company's MPSC Tariff 25U, generally apply to this tariff unless otherwise specified. As applied to LCTS, the term "access service" is replaced with the term "Local Call Terminating Service". (C)  
|  
(C)
2. LCTS requires the use of Calling Party Number (CPN) when a call is setup using SS7 or ANI when the call is setup using other methods. Calls with the appropriate CPN/ANI for the provider's service area will be billed at the rate shown herein. Calls without the appropriate CPN/ANI will be billed as toll access.
3. Terminating access services (those services provided under the Company's MPSC Tariff 25U) are not allowed over facilities associated with local call termination except in the case where the Company receives compensation for the use of those facilities under a FGA Revenue Sharing agreement. If it is determined that the customer has routed terminating access services over facilities ordered for local call termination in violation of the above, the Company will charge the customers the higher of local call termination charges or terminating access charges for all the traffic routed over those facilities plus a penalty of three times the original charges.
